Noto

Senior Industrial Designer (all genders)

We are looking for a Senior Industrial Designer to support our young and diverse team near Cologne, Germany. Join us in developing high end product design solutions and user experiences stories. Exchange with a diverse team of nerd-level experts with a wide range of interests. Inspire and guide your own teams through all stages of a project and bring your values into each collaboration in close communication with the client and your team members.

YOUR RESPONSIBILITIES

- Lead and participate in exciting design projects through all phases: from research, ideation, concept creation, refinement to finalization and implementation
- Create and perform presentations directly to clients, with a broad understanding for manufacturing processes, brand values and marketing impact
- Independently work on a wide range of products, from consumer electronics and professional tool to soft goods, jewelry and premium hi-fi sound systems
- Develop narratives to drive projects with relevance and guide small teams of 2-3 people to achieve products that enter the market with an impact
- Guide the team and be a mentor for design quality and storytelling. Share your knowledge among the others and be part of the future for Noto as a brand
- Create project proposals and quotations for new projects or pitch decks for new clients, confidently presenting project plans with sensitivity for budget and strategic vision

WHAT IT TAKES

- Relevant Degree in Design - Bachelor of Arts or Diploma
- 4+ years of experience in a related field or position
- Excellent communication skills in spoken and written form
- Fluent in English, German is a bonus but not mandatory
- Confident in presenting and defending project results internally and to clients directly
- Project management experience, reliably and independently leading teams in research, exploration and ideation workshops, design refinement and implementation to market
- Experience in balancing quality, time and budget and communicating project status and goals with clients
- Passionate about design and the creation of holistic user experiences
- Highly skilled with latest design software: Rhino, Keyshot, Adobe Creative Suite, Miro and open minded to learn and master new tools
- Team player with empathy and sensibility, to confidently brief tasks and deliver constructive feedback to other team members
- Strong ability to adapt to new tasks, unknown branches and technical challenges

WAIT, THERE IS MORE

Inhouse chef prepares free lunch twice a week • Company bike leasing • Challenging ping pong matches • Cocktail Fridays
• Summer BBQ and Christmas party • After work activities - squash, climbing, badminton, volleyball, yoga
