## Industrial Designer (all genders)

We are looking for a Mid-Level Designer to support our young and diverse team near Cologne, Germany. Join us in developing high end product design solutions and user experiences stories. Exchange with a diverse team of nerd-level experts with a wide range of interests. Inspire and work with different teams through all stages of a project and bring your values into each collaboration in close communication with the client and your team members.

### YOUR RESPONSIBILITIES

- Participate in exciting design projects through all phases: from research, ideation, concept creation, refinement to finalization and implementation
- Create and perform presentations directly to clients, with a broad understanding for manufacturing processes, brand values and marketing impact
- Learn to guide small projects on your own and work on narratives to drive projects with relevance
- Independently work on a wide range of products, from consumer electronics and professional tools to soft goods, jewelry and premium hi-fi sound systems
- Learn from the team and the senior designers to elevate your sense for design quality and storytelling.
- Share your knowledge among the others and be part of the future for Noto as a brand
- Support on creating proposals and quotations for new projects or pitch decks for new clients, with sensitivity for budget and strategic vision.

### WHAT IT TAKES

- Relevant Degree in Design - Bachelor of Arts or Diploma
- Established experience in design related fields
- Excellent communication skills in spoken and written form
- Fluent in English, German is a bonus but not mandatory
- Confident in presenting and defending project results internally and to clients directly
- Reliably and independently work in different phases of a project: Research, exploration and ideation workshops, design refinement and implementation to market
- Experience in balancing quality, time and budget within a project task
- Passionate about design and the creation of holistic user experiences
- Highly skilled with latest design software: Rhino, Keyshot, Adobe Creative Suite, Miro and open minded to learn and master new tools
- Team player with empathy and sensibility, to confidently discuss project briefs and deliver constructive feedback to other team members
- Strong ability to adapt to new tasks, unknown branches and technical challenges

### WAIT, THERE IS MORE

- Inhouse chef prepares free lunch twice a week
- Company bike leasing
- Challenging ping pong matches
- Cocktail Fridays
- Summer BBQ and Christmas party
- After work activities - squash, climbing, badminton, volleyball, yoga
