Noto

Mid-Level Industrial Designer (all genders)

We are looking for a Mid-Level Designer with at least 3 years of experience to support our young and ambitious team near Cologne, Germany. Join us in developing high end product design solutions and user experiences stories. Exchange with a diverse team of nerd-level experts with a wide range of interests. Inspire and work with different teams through all stages of a project and bring your values into each collaboration, creating a positive future in close communication with clients and your team members.

YOUR RESPONSIBILITIES

- Participate in exciting design projects through all phases: from research, ideation, concept creation, refinement to finalization and implementation
- Create and perform presentations directly to clients, with a broad understanding for manufacturing processes, brand values and marketing impact
- Learn to guide small projects and lead your own team to create strategic visions and emotional narratives to drive projects with relevance
- Independently work on a wide range of products, from consumer electronics and professional tools to soft goods, jewelry and premium hi-fi sound systems
- Learn from the team and the senior designers to elevate your sense for design quality and storytelling.
- Share your knowledge among the others and be part of the future for Noto as a brand
- Support on creating proposals and quotations for new projects or pitch decks for new clients, with sensitivity for budget and strategic vision.

YOUR PROFILE

- Relevant Degree in Design - Bachelor of Arts or Diploma
- Passionate about design and the creation of holistic user experiences
- Established experience in design related fields, minimum of 3 years
- Excellent communication skills in spoken and written form
- Fluent in English, German is beneficial but not mandatory
- Confident in presenting and defending project results internally and to clients directly
- Reliable and independent in working in different phases of a project: Research, exploration and ideation workshops, design refinement and implementation to market
- Experienced in balancing quality, time and budget within a project task
- Team player with empathy and sensibility, to confidently discuss project briefs and deliver constructive feedback to other team members
- Strong ability to stay curious and adapt to new tasks, unfamiliar industries and technical challenges
- Highly skilled with latest design software: Rhino, Keyshot, Adobe Creative Suite, Miro and open minded to learn and master new tools

WAIT, THERE IS MORE!

Inhouse chef prepares free lunch twice a week • Company bike leasing • Challenging ping pong matches • Cocktail Fridays
• Summer BBQ and Christmas party • After work activities - squash, climbing, badminton, volleyball, yoga
